“ *Schooling to me is not just rote learning but a sense of deep understanding. It is not just routine but also excitement and fun. It is not isolation from community but engagement with it.* ”

The importance of education is simply beyond the ken of words. Education helps an individual growth not only as an individual but also as an intellectual. For me, education is not only just mugging up lessons and passing exams with flying colours. It means learning the values of humanity and developing life to achieve an excellence in all spheres of life. I strongly believe that schooling is all about being unleashed, unleashed whatever you want in life. Education is about learning how not fear failures on the course of pursuing success. Schooling to me is not just rote learning but a sense of deep understanding. It is not just routine but also excitement and fun. It is not isolation from community but engagement with it.

I endeavour not only to be an able administrator but also to be a friend of all the students and staff, the one they can share their experiences and concerns with and trust at all times. I assure that my doors are always open for all my students, parents, teachers and non-teaching staff for any sort of suggestion or guidance to make our dream of a perfect school breathe to life.

We, at Prince International School have chosen the path of educating our children as opposed to just schooling them. In the years to come, we aim to take giant strides forward. To achieve an exceptional community where every learner is free to be their own self and grow not only as a successful individual but also a successful intellectual through integration of heart, soul, mind and body.

I AM HERE.  
WHAT ABOUT YOU?

(Mr. Mahendra Saini)  
Principal

Through our prospectus and more significantly your cordial visit to the school, I hope you will see the ethos and values of our happy, thriving and successful independent day cum residential school. We believe in the all-round development of the individuals within an educational, compassionate welcoming and broad minded community.

We are a well ordered, successful and happy foundation school located on a spacious site with excellent facilities. The school's beautiful location provides a quite and attractive setting for the students to enjoy the full range of our amenities.

Prince International School is a caring and vibrant school community. We are justly proud of the high quality education we provide. We expect all of our disciples to work with a fantastic attitude to learn and to behave in a way which shows courtesy to others.

In April, 2015 we were delighted to move in our brand new building. This has provided our aspirants and the local community with state of the art facilities in all subject areas which enabled us to further develop the academic, cultural and sporting interest of our aspirants in an attractive modern environment.

We are proud to be a comprehensive school serving our local community, providing an excellent education for all our aspirants.

The first step into school is that giant step forward, where children embark on the great adventure of discovering the wide world outside and the depth of the world within. As we hold the little finger and guide the young ones forward, we realize our responsibility of nurturing their curiosity, igniting their minds to pierce the skies, helping them to discover the world of books and richness of experience, ponder on the "mystery of birds in the sky, the bees in the sun, the flowers on a green hill", and today master the magic of technology and the limitless span of cyber space.

We, at Prince International School believe that education is a process of awakening individual potential to creative knowledge, but more importantly enlightening students with the wisdom that they must "never put a price tag on their heart and soul". A good career is important but a good character is paramount. We believe that 'individuals' are atoms that hold tremendous power within serve as agents of change and thus are confident that our students, enriched with a sense of high morality and social responsibility will be makers of a virtuous society. In a world of stiff competition, strife and unrealistic aspirations, it calls for sensitivity on our part as educators to help children understand that predicament is common to everyone. Problems and challenges need to be faced courageously with conviction in our principles and confidence in our inner strength and dreams.

(Mrs. Nirmla Lamba)  
Vice Principal

# STUDENTS & VISITORS PERSPECTIVE

## Students' Views about the School

Came here in second class. I am in ninth now. The school and I both upgraded ourselves. Foundation courses, sports facilities have increased. Teachers are friendly.

**Kumkum - IX**

My first school is Prince and I will do 12th from here. It has good environment for studies, even in sports, trained coaches make preparations.

**Rohit kumar - IX**

Got a lot of benefit from bilingual teaching. The new building is spacious. The class rooms are very interacting for learning. My percentage kept increasing every year.

**Shreeja - X**

Here we uncover the hidden talent, hone it. The school's monthly news letter kept us update us about current affairs as well as what career to choose in future. It is really an appreciable effort of management.

**Mohd. Rehan - X**

My journey from nursery to class X has been an exciting one. Faculty is good. The atmosphere is also healthy. Along with studies, children get a lot of opportunities to progress in sports and culture.

**Chanchal - X**
